

## Liverpool John Moores University Academic Policies and Regulations and Application for Collaborative Partnerships

The following table set out the details about the LJMU policies that are relevant, at least in part, to collaborative partners and the delivery of LJMU programmes. The names of the policies are set up as hyperlinks which direct to the full policy for further information.

If a partner institution wishes to operate outside of an academic policy that the University has designated that partners will comply with, an application, with rationale, should be submitted for consideration by the Academic Quality and Standards Committee (AQSC).

*Please note – for joint and dual awards, application of the policies below will be agreed on a case-by-case basis.*
